

# UC Davis Wildfire and Smoke Health Summit Program

A virtual research conference focused on health effects of wildfires

The videos of the presentations can be viewed on BOX via the click-able links of the presenters listed below. Please note that a VPN connection, UC Davis CAS login, DUO and a video player will be needed.

## Session 1:

**Moderator:** Angela Haczku and Paul Dodd

**Kenneth W Kizer** (Atlas Research)

The Many Health Effects of Wildfires: The Need for Research- informed Policies and Preparedness

**Irva Hertz-Picciotto** (UC Davis School of Medicine)

Wildfires and Health: Assessing the Toll in Northern California

**Kent Pinkerton** (UC Davis School of Medicine)

Health Impacts of Wildfires and Airborne Particulates

**Tina Palmieri** (UC Davis School of Medicine)

A One Health Perspective on the California Wildfires

**Bryn Willson** (OBGYN resident, UC Davis School of Medicine)

Effect of Wildfire Smoke Exposure on Pregnancy Outcomes in the Non- Human Primate

**Edgar Olineka** (Penryn Fire Protection District)

Wildfire smoke exposure: One firefighters' perspective

## Session 2:

**Moderators:** Anthony Wexler and Tina Palmieri

**Angela Haczku** (UC Davis School of Medicine)

Wildfire Smoke and Innate Immune Cell Activation

**Rebecca Schmidt** (UC Davis School of Medicine)

Environmental exposures and health in pregnancy

**Lisa A Miller** (UC Davis School of Veterinary Medicine)

Health Outcomes of Early-Life Wildfire Smoke Exposure: Lessons Learned from a Nonhuman Primate Cohort

**Nick Kenyon** (UC Davis School of Medicine)

Personalized monitoring approaches during wildfires

**Camille Raynes-Greenow** (University of Sydney, Australia)

Smoke exposure on pregnant women and children, impacts, mitigation and messaging

In conjunction with the third International Smoke Symposium (ISS3) April 20-24, 2020  
Sponsored by the UC Davis School of Medicine and the UC Davis Office of Research
